Product Features: Product Benefits:

20% protein from various sources Provides flexibility to choose supplement and feeding rate that fits the needs of the individual cattle producer

Supplemental protein or energy for beef cattle on forage based diets

Increases low-quality forage intake and utilization

May contain approved animal Provides high quality by-pass proteins needed to optimize animal performance.

No Minerals added Flexible. Allows producer to choose mineral program based on mineral needs of the herd

Vitamin A fortified Extra Vitamin A for improved animal health and performance

Usage Tips

Feed to cattle as needed to supplement roughage. Provide a free-choice mineral such as Pro-Phos 12, 10 or 8 Mineral.

Always provide plentiful forage and water daily.

Key Points1. Provides extra protein and energy required for growing heifers and cows.

2. These products do NOT contain trace minerals or a significant source of macro minerals (Ca, P). A free-choice mineral program like Pro-Phos 12 Mineral is recommended with these products.
3. Targeted for feeding cows in mid to late gestation.
4. Lowers purchased feed cost with a high quality and more durable cube.
