INGREDIENTS

Processed Grain By-Products, Plant Protein Products, Animal Protein Products, Roughage Products (not more than 60%), Forage Products, Grain Products, Molasses Products, Dried Bakery Product, Calcium Carbonate, Salt, Monocalcium/Dicalcium Phosphate, Vitamin A Supplement, Sodium Selenite, Manganous Oxide, Zinc Oxide, Copper Sulfate, Zinc Sulfate, Potassium Chloride, Potassium Iodide, Calcium Lignin Sulfonate, Magnesium-Mica, Manganese Sulfate, Mineral Oil, Basic Copper Chloride, Ethylenediamine Dihydriodide, Cobalt Carbonate

FEEDING DIRECTIONS

Feed to cattle as needed to supplement grazed or harvested forage diets. Recommended feeding rates are from 1 to 3 lb/head/day. Maximum feeding rate is 6.6 lb/head/day. Ensure that cattle have access to adequate forage and water. Additional mineral supplementation may be required, depending upon forage quality and animal requirements.

CAUTION

Do not feed to sheep because of high levels of supplemental copper.

Available Options:

Product No. Products Type of Protein

1760125 RL 20 Breeder Cube Vegetable, Animal
1760127 RL 20-6 Breeder Cube Vegetable, Animal, NPN
1760128 RL 20-8 Breeder Cube Vegetable, Animal, NPN
1760130 RL 30-10 Breeder Cube Vegetable, Animal, NPN

RangeLand Breeder 20 Cube- **1760125** 09/2001

Product Features: Product Benefits:

20% protein from various sources Provides flexibility to choose supplement that fits the needs of the individual cattle producer

Supplemental protein or energy for beef cattle on forage based diets

Increases low-quality forage intake and utilization

Different sources of protein are available Cubes containing vegetable and ruminant approved animal proteins provide important amino acids for the rumen

microbes and the animal; some cubes may contain urea as a cost-effective non-protein nitrogen (NPN) source that the rumen microbes need for optimal production

50% trace mineral fortification based on NRC beef cow requirements

Flexible. Allows producer to choose a mineral supplement program based on mineral needs of the herd

Vitamin A fortified Extra Vitamin A for improved animal health and reproductive performance

Usage Tips

Feed to cattle as needed to supplement roughage. Additional mineral supplementation may be needed, depending on forage

quality and animal requirements. If additional mineral supplementation is necessary a mineral supplement such as Pro-Phos

12, 10 or 8 Mineral may be used. Always provide plentiful forage and water daily.

Key Points

1. Provides extra protein and energy required for growing heifers and cows.
2. These products contain 50% of NRC trace mineral requirements. This provides flexibility in choice of mineral program when needed.
3. Targeted for feeding cows in mid to late gestation.
4. May be used to maintain beef cow weight and body condition during wintering period.
5. RangeLand Breeder 30-10 is ideal for use on corn stalks.
